

Unique Anti-Residual design
When there is no power, there will be no holding force, and
the push-off button will pop out immediately, to release the
Electromagnetic Lock and the Armature Plate for no residual
magnetism.

#### Statement

The fail-safe Electromagnetic Lock design with no mechanical parts but magnetic force to secure and release the doors, suitable for use in areas which required access controlled or egress such as sliding gate etc.

The Electromagnetic Locks are totally sealed in an epoxy filled stainless steel case for water-resistant and vandal-resistant purpose. A threaded conduit fitting ensures weather resistant protection of the wiring therefore it is ideal for indoor and outdoor applications, even in severe weather.

We offers up to 600 pounds holding force with jumper pin selectable for 12V or 24V DC dual input voltage. It is the best choice for electronic security industry and system integrators.

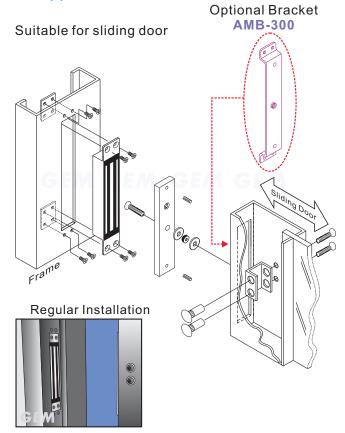

### Operating Features 10000STR: Bond sensor output

Bond sensor is used to indicate the door status as in a locked or unlocked condition.

Bond sensor monitor output : SPDT rated: 3A@12VDC

## Application

## Specifications

- Voltage Tolerance:15%
- Current Draw: 495mA@12Vdc,248mA@24Vdc(at temperature 20C) (Further notice for diverse input voltage on special order requirement)
- Magnetic bond sensor monitor output (10000STR) (SPDT rated 0.25A@12V DC), remotely monitors the door lock or unlock status. (N.C. Output--Door opened; N.O. Output--Door closed)
- Operating Temperature: -10~55C)14~131F(
- Humidity: 0~95% non-condensing.
- Lock's surface Temperature (when the power is on): (current temperature +20C)
- Holding Force: Up to 600 lbs )272 Kg(
- Dimensions:
  - Magnet:(L) 227, (W) 38, (D) 26 mm Armature Plate:(L) 185, (W) 38, (D) 12 mm
- Special Finishes for magnet and armature plate: Zinc
- Epoxy Potting Compound: E87252 (S), UL94V-0
- Weight )Approx.(: 2.1 Kg

# Warranty

The product is warranted against defects in material and workmanship while used in normal service for a period of 5 year from the date of sale to the original customer. The GEM policy is one of continual development and improvement; therefore GEM reserves the right to change specifications without notice.
